VISUAL ASSET BOARD

01 THE PLAYABLE WORLD

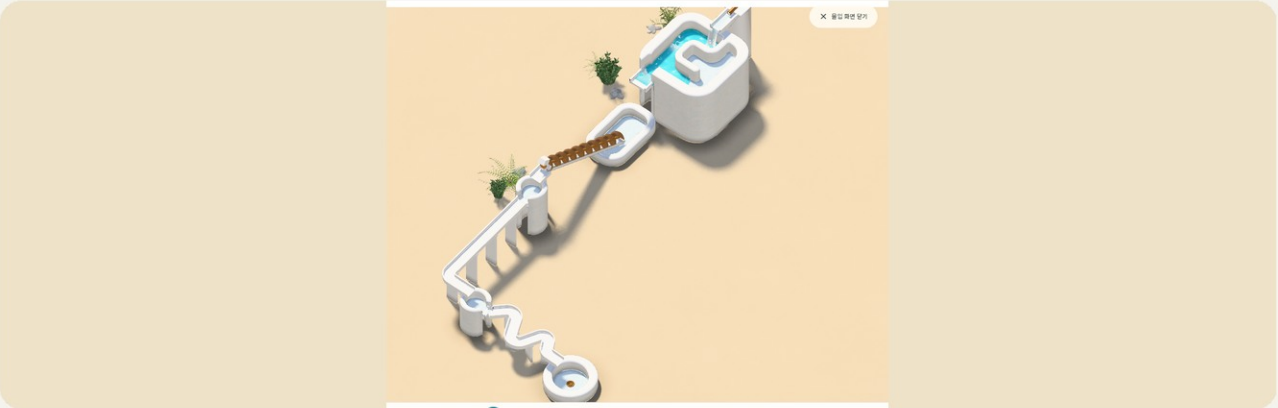

Terraced Garden: ceramic maze basin, bamboo tipping spout, stepped falls, rain chain and terminal lotus pond. Water visible here comes from the running basin simulation.

02 MAKE / POUR / COMPLETE

A player adds one pond. Actual water reaching the end awards three stars and unlocks the next challenge. Ten stages have distinct goals.

03 WATER MACHINES

Archimedes screw, aqueduct and zigzag course. Devices, plants and surfaces are procedural geometry inside the application.

04 TERRACED GARDEN / ACTUAL CAMERA TURNAROUND
